### National Library Week: April 10 - 16, 2005 by Noel Rutherford

"There's something for everyone @your library." That's the theme for this year's National Library Week, April 10-16. First sponsored by ALA in 1958, National Library Week is a time to celebrate the contributions of our nation's libraries and librarians and to promote library use and support. All types of libraries—school, public, academic and special—participate.

When National Library Week was first proposed in the late 1950s, research showed that Americans were spending less on books and more on radios, televisions, and musical instruments. In 1954, a committee (The National Book Committee) was formed by the ALA and the American Book Publishers to address this decline in reading. Their proposal to create a week to celebrate libraries was intended to motivate and fuel people's interest in reading, improve incomes and health, and develop strong and happy families.

Although we have been celebrating and promoting libraries for forty-seven years, some might question how successful this campaign has been. The decline in reading has accelerated. Today, people are reading less than ever before while choosing to spend their leisure time watching TV, listening to music, or surfing the Internet. While incomes have certainly risen over the years, the gap between the rich and poor has widened while the middle class has steadily shrunk in size. The

health of the nation has also improved but fewer people today can afford to take advantage of costly treatments with the sharp increase in the uninsured. And lastly, with a high divorce rate, an ever-rising number of single-family households and the large number of children living in poverty the goal to develop strong and happy families has yet to be attained.

However, if libraries were never celebrated, if their achievements were ignored and their vital role as educational, cultural, and recreational centers forgotten, if the librarian's role had been negated and replaced with clerks with no professional certification, if library buildings had been torn down or no new ones built over the past forty-seven years, America and its citizens would be the poorer, culturally and materially.

The goals of the original committee were ambitious. They wanted what we still strive for today—health, wealth, and happiness. National Library Week alone can't give us all those, but it can and does remind people not to take their libraries and all they have accomplished for granted. The free access to information, to educational material, to cultural enrichment is a hallmark of this country. The freedom we often strive to protect is exemplified by our public libraries and the annual campaign to celebrate and remember that freedom is National Library Week.

### Taxonomies: The Topic of the Joint Spring Workshop

"Information Organization for the 21st Century: Taxonomies, Ontologies, and the Semantic Web" will be the topic of this year's Joint Spring Workshop (JSW) sponsored by the DC Special Libraries Association (DC-SLA)-Lead Sponsor, District of Columbia Library Association (DCLA), Law Librarians' Society of Washington, DC (LLSDC), and the Federal Library and Information Center Committee (FLICC) on Friday, April 15, 2005, from 8:30 until 4:00.

Taxonomies have been around for years, so why are they such a hot topic now? Come find out from industry leaders such as Joseph Busch of Taxonomy Strategies, who will give a keynote address describing what taxonomies are and aren't, why they are important, and where they fit into the information

landscape today. Denise Bedford of the World Bank will share her expertise on implementing taxonomies and how they are being used in the dynamic environment of the World Bank. New and groundbreaking applications such as visualization are appearing in

data, and a representative from Thomson will discuss exciting developments and/or current projects.

While taxonomies have been around for years in one format or another, the semantic web is truly cutting edge. We've all

heard the term, but do we know what it means, and how it might affect our work? Come and find some answers from an expert: Dr. James Hendler, Director of the Mindswap Lab at University of Maryland, and member of the W3C (World Wide Web Consortium) at MIT. Michael Daconta, Metadata Program Manager for the Dept. of Homeland Security, will share his knowledge about the Taxonomy-Ontology continuum.

### CLIS Partners with DCPS to Train School Library Media Specialists by Delia Neuman

Since the 1830s, when our nation's first educational reform movement got underway, "reform" has been a theme the DCPS throughout their throughout the history of American education. And repeatedly, school libraries were seen as key elements in whatever particular reform movement was in place. Today, as schools implement reform measures like charter schools, standards-based testing, and direct instruction, school library interviewed candidates who media centers continue to hold an important place in reforming the College for the Fall 2004 education to meet the needs of the nation and its students.

The Institute of Museum and Library Services (IMLS) recognizes the catalytic role of the library media center in today's schools, particularly those in urban settings. In 2003, IMLS granted almost \$10 million to 27 projects selected from 76 applications to its "Recruiting and Educating Librarians for the 21st Century" grant program. A half dozen of these projects specifically target the preparation of library media specialists. One of these is enabling the University of Maryland's College of Information Studies (CLIS) to recruit and educate eight current District of Columbia Public Schools (DCPS) employees to earn their MLS degrees with a specialization in School Library Media so that they can become library media specialists in the DCPS.

IMLS's \$209,026 grant to CLIS is providing full-tuition stipends to enable the DCPS Partnership students to take one course a

semester (and two each summer) for three years. Candidates will continue working for studies and will return to DCPS as library media specialists for at least three years after graduation. Recruitment efforts began shortly after the grant was announced in October 2003, and recipients of the stipends were selected in June after CLIS and DCPS staff had already been admitted to semester.

This fall, the DCPS Partners are taking their first course— LBSC 640, the introduction to the school library media field. They are reading articles, writing papers, observing in library media centers inside and beyond the District of Columbia, and getting used to juggling the busy lives they will lead for the next three years. In the fall of 2007, they will take their places as newly minted library media specialists in the DCPS.

Delia Neuman is an associate professor and the coordinator of the School Library Media Program at CLIS. The principal investigator for the IMLS grant reported here, she holds a master's degree from the University of Michigan and a Ph.D. from The Ohio State University. She has published in a variety of journals and is the writer of Information Power: Building Partnerships for Learning, the current national guidelines for school library media programs.

### DCLA Student Loan Recipient in CLIS/DCPS Program

Deborah Hensley, library media specialist-designee at the Watkins Elementary School Campus of the Capitol Hill Cluster School and 2003 winner of DCLA's Ruth Fine Memorial Student Loan, writes to share this news:

Last year, I applied to the University of Maryland's College of Information Studies (CLIS). I was very happy when I received my acceptance letter during the summer, but a month later an even better acceptance letter came along—one that informed me that I had been awarded a full-tuition stipend to CLIS. The stipend was provided as the result of a grant from the Institute of Museum and Library Services (ILMS) to a partnership between CLIS and the DC Public School system. After my initial shock at having been one of only eight men and women working for DCPS to be selected for this privilege, I realized that the program reflects some very good news about what the IMLS is doing for our profession, which I wanted to share with the readers of Intercom.

According to its own Web site, the IMLS is "an independent Federal grant-making agency dedicated to creating and sustaining a nation of learners by helping libraries and museums serve their communities." The IMLS recognizes that anticipated shortfalls in the ranks of librarians will, unless checked. adversely impact the future of libraries. Additionally, realizing how important library media

DCPS/CLIS Partnership (cont.)

centers are in today's schools, the IMLS has embarked on a series of partnerships aimed at recruiting and educating library media specialists for the future, particularly in under-served communities.

I have used the word "partnership" intentionally. All the parties involved share in the obvious benefits, but they also share in the responsibilities. CLIS agrees to let the stipend recipients study at Maryland in-state rates (most are DC residents), which is the amount IMLS funds. DCPS agrees to cover the costs of substitutes during the practicum component of our program. The students have an obligation to stay with DCPS for at least 3 years upon receipt of their degrees. Five of the eight stipend recipients are not currently employed as library staff, so this means new talent to go into the schools.

I feel amazingly fortunate in being selected for this IMLS/CLIS/DCPS partnership program, which allows me to complete my degree over three years, while continuing to work full-time at my job as a library media specialist-designee for DCPS. I want to thank Dr. Delia Neuman, who is the associate professor and coordinator of the School Library Media Program at CLIS, and Dr. Bester Bonner, director of Library Media Services at DCPS, who helped make this program available to me and my fellow MLS students.

— Deborah Hensley

### LIBRARIANS AND LIBRARIES

(submissions welcome to psard@comcast.net)

Francis Buckley, Jr. has been elected to the American Library Association's Executive Board, to serve a three year term from June 2005 to June 2008. He is currently a director of DCLA and a member of the board of directors the Freedom to Read Foundation. He has served as the U.S. Superintendent of Documents, chair of the Depository Library Council to the Public Printer, president of the Michigan Library Association, and a member of the OCLC Board of Trustees and of the Detroit Literacy Council Board of Directors. He earned his MLS at the University of Michigan.

Frank Kurt Cylke, director of the National Library Service for the Blind and Physically Handicapped at the Library of Congress, has received an honorary life membership in the World Blind Union.

Robert Newlen has been elected to a second term as an American Library Association Endowment Trustee. He will serve through June 2008. He is the head of the legislative relations office, Congressional Research Service, Library of Congress and a member of the ALA Scholarship Task Force. He has served as a member of the ALA Executive Board (1996-2000), a director of DCLA (1991-1993) and as DCLA's ALA Chapter Councilor (1991-1996). He holds an MA from American University and an MSLS from Catholic University.

Patricia J. West is the newest member of the PsycINFO team. She joined the American Psychological Association in January 2005 as the new training/documentation specialist. In this capacity, she will develop training programs and a variety of user support and search tools for all of APA's products.

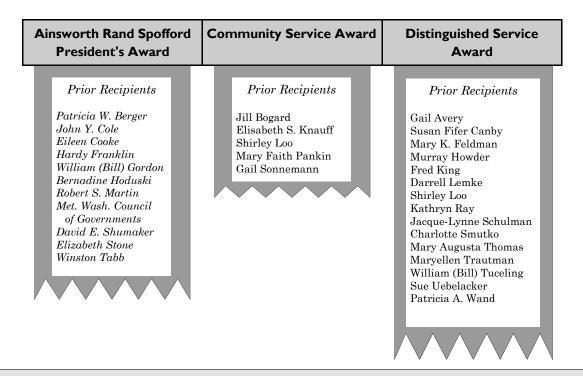

A native of Massachusetts, Patricia comes to APA with nearly 20 years of professional writing experience in the research and business worlds. She recently received her master's degree in library and information studies from the University of Alabama. As part of her graduate training, she recently completed an internship in the reference department at American University.

In her new position, she is looking forward to meeting and interacting with APA's diverse customer base and helping users to take advantage of the excellent resources available from APA. "PsycINFO is such a highly respected research product and I'm thrilled to have an opportunity to help people make the most of it."

The Bill and Melinda Gates Foundation has awarded an \$85,200 "Staying Connected" cash grant to the District of Columbia to expand computer training labs and buy eleven computers at the Martin Luther King Jr. Memorial Library. Maryland's grant is for \$157,200 to upgrade hardware in seven computer labs. Virginia has received \$276,640 to add or replace computers in 196 libraries. The technology purchased with the grants does not need to come from Microsoft, according to Martha Choe, director of the Foundation's Global Libraries project.

### DCLA AWARDS COMMITTEE SEEKS NOMINATIONS FROM YOU!

DCLA recognizes exemplary contributions to libraries and librarianship at its annual Spring Banquet. Please contact Awards Committee chair Bill Turner at (202) 727-4968 or bill.turner@dc.gov by March 31 with your nominations. Visit <www.dcla.org> for a description of each award.

## DISTRICT OF COLUMBIA LIBRARY ASSOCIATION RUTH FINE MEMORIAL STUDENT LOANS

For the fourth year, DCLA will award two \$5,000 Ruth Fine Memorial student loans to library school students.

Previously, loans have been awarded based on commitment to pursuing a professional career in the library/information science field, academic background, previous work experience, and financial need. Preference will be given to a District of Columbia resident or someone employed in the District of Columbia.

The loan may be forgiven after evidence of superior academic achievement in library school.

Interested applicants should go to the DCLA Web site (www.dcla.org/dcla-loan.htm) for more information and application forms.

The deadline for applications is Friday, April 15, 2005.

Questions? Contact Jean Craigwell, DCLA Student Assistance Committee, 202-458-6172 (jcraigwell@oas.org).
